Miss You

Foster the People

Forget your problems
Lay it down, they start up
The innocence of what you are is what I want
I've ran my colors dripped down and drained out
Tried a million things, but my heart's been shotWell I hope you try to find me, I'm all spun and pacing
I know what you want to say here, so say it
Forget the words I'm speaking
Just want to rearrange so I'll just say it
Ooooooooooh yeah.I really miss you, I miss you, I said
Smile at the chance just to see you again
I really miss you miss you, I said
Yeah Yeah YeahHeat stroke, death's like
The wrong things that I think are rightI never knew that I could go as far as this
I took a problem recently forgotten
I know who I had been before I slipped
Oh, I want to change it
I will live a life that makes you smile
When I'm done here and long gone
Feverish speaking, just wanna see your face
Oh, What you say, what you say?
Oh yeah
I really miss you I miss you, I said
Smile at the chance just to see you again
I really miss you miss you, I said
So Look at me now
Before I walk away
You just might miss me or miss me one day
Yeah Yeah Yeah
