

Top of the World

Kimbra

On a condition
We on our way to the top
We got the world at our fingers
We make the penny drop
Gotta get in and get outta the gate
I won't stop till I wake
I'll say it loud till I mean it
Talk like I be the messiah I'm on top, I'm on top
I'm on top of the world
See me run, see me run
See me run with the girls
I'm on top, I'm on top
I'm on top of the world
Need a break, then I'll take to the top of the world
Euphoria
Mystery like a new treasure
We go so good together
Search all my life to find better
But I won't hold my breath
I'll just fill up and deliver
They got attention deficit
Waitin' for their love to visit All my life turn to dust
All I knew who to trust
Had a chance for good love See me on tele
See me on billboards and banners
See me with white picket fences
Now watch me build up my palace
Now out on the run, you'll see me gathering might
Won't forget where I started where we will (break from the gardens)
'Cause I'm on top, I'm on top
I'm on top of the world
See me out
See me out with the diamonds and pearls
I'm on top, I'm on top
I'm on top of the world
Th-They can talk, they can talk
But I got the good word Man it's crazy to define brand new
It's amazing I got high on few
But tonight I'm feeling tired and alone
Dear lord, I hope we didn't go wrong I think I'm winning
Feel like I might
Feels like I'm in it

Feel like a god
I'm in demand
They're on my time
One in a million
'fore they could find We break from the gardens
I wanted to follow you
Break from the gardens
I wanted to follow you Yeah I'm on top, I'm on top
I'm on top of the world (We break from the gardens)
See me top, see me top
See me top of the herd (I wanted to follow you)
I'm tryin'
I'm tryin' for the top of the world (Break from the gardens)
(I wanted to follow you) I'm happy, I'm winning
Not concerned if I'm cheating
They built me up to be beaten
They built me up to be beaten
