It Was You (With Zeeba)

GoldFish

[Verse 1]
If I only had a time machine
Living life like a movie scene
Flipping pages in a magazine
In your room when we were seventeen (never mind)People keep saying when you're older
But sometimes you forget
That the homework from school that you could get
And the girl from Tulum that you thought you'd never met[Bridge]
Now I see it
It was you
That was you
It was you
It was you
[Verse 2]
Now I'm living in an endless dream
Thinking about what it could have been
Just need to break out of this routine
Waiting for the lights to turn to greenTo all the places that i've never been
Packed my bags i'm coming soon
The calls that I missed
The time we first kissed
All the things that I regret
Here in this list
I wish I could forget make a different twist[Hook]
Now I see it
Oh, now I see it
Oh, now I see it
Now I see it
Now I see it
[Chorus]
It was you
That was you
It was you
It was you[Verse 3]
Wish I had time machine
Living life like a movie scene
Now I'm living in an endless dream
Thinking about what could have been[Outro]
I wish I had a time machine
Let's go back to when we're seventeen
