Heroes Never Die

NateWantsToBattle

Pull out all the stops we got a way that we can get it
Just say the word, I'll kick it up to eleven
We're knocking on your door with what we got in store
Don't break it up, break it downWe'll kill the night and we'll never see the sun
(Day and night going crazy)
Don't call the shots, don't you tell me when I'm done
(Leaping through this life is amazing)
Hey diddle-diddle won't you meet me in the middle
Let the music make you fly
Don't need to show no mercy cause heroes never die
Now listen up I'm gonna give you a rundown
(Got you in my sights, you know I've got this on lockdown)
We're running out and free, this life was meant for me
Step to the plate, you gotta show me what you got
Show me what you gotWe'll kill the night and we'll never see the sun
(Day and night going crazy)
Don't call the shots, don't you tell me when I'm done
(Leaping through this life is amazing)
Hey diddle-diddle won't you meet me in the middle
Let the music make you fly
Don't need to show no mercy cause heroes never die
We'll kill the night and we'll never see the sun
(Day and night going crazy)
Don't call the shots, don't you tell me when I'm done
(Leaping through this life is amazing)
Hey diddle-diddle won't you meet me in the middle
Let the music make you fly
Don't need to show no mercy cause heroes never die
I see that heroes never die
