Love in Ruins (feat. Sinead Harnett)

Gryffin

Show me how we move
Now I'm learning
Three is more than two
You are the one I see
You are a half of me
As much as we bare our souls, we're animals
I'm aching to see my boy lose control
I know that we could leave our love in ruins
And bury this six feet in the grave
But I wanna know the hurt that hits
When you kiss our lips
So why don't we play a game?
I know that we believe our love in ruins
Or maybe we should both be unafraid
I wanna see you bend the rules
Me and youI know that we could leave our love in ruins
And bury this six feet in the grave
But I wanna know the hurt that hitsWhen you kiss our lipsSo why don't we play a game?
Show me how she moves
All this time and
We're too strong to lose
And I promise you
You are the one I see
You are a half of me
As much as we share our souls, we're animals
I'm aching to see my boy lose control
I know that we could leave our love in ruins
And bury this six feet in the grave
But I wanna know the hurt that hits
When you kiss our lips
So why don't we play a game?
I know that we could leave our love in ruins
Or maybe we should both be unafraid
I wanna see you bend the rules
Me and you
(So why don't we play a game?)
I know that we could leave our love in ruins
And bury this six feet in the grave
But I wanna know the hurt that hits
When you kiss our lips
So why don't we play a game?
