Daydreams About Night Things

Ronnie Milsap

I'm having daydreams about night things in the middle of the afternoon
And while my hands make a living my mind's home loving you
I'm having daydreams about night things in the middle of the afternoon
And every night you make my daydreams come trueWell all day long while I'm working in town time slows down to a crawl
When I'm not thinking about you, I'm checking the clock on the wall
Then it's goodbye factory and hello love and there's a smile across my face
'Cause I'm back in the arms of your sweet love
Where my thoughts have been all dayI'm having daydreams about night things in the middle of the afternoon
And while my hands make a living my mind's home loving you
I'm having daydreams about night things in the middle of the afternoon
And every night you make my daydreams come true
I'm having daydreams about night things in the middle of the afternoon
While my hands make a living my mind's home loving you
I'm having daydreams about night things in the middle of the afternoon
Every night you make my daydreams come true
Yeah every night you make my dreams come true
