[Verse 2: Tory Lanez]
Lil Tory!
Girl you look good when you back that ass up
Know I look good when I back the cash out
Shawty from the hood and I'm back in the trap house
Talk that shit till you back at your dads house
I'm a real nigga from the T and O
Had a bad little bitch that let me beat on the floor
I remember nights I had to sleep on the floor
I see them days, I don't ever wanna go back no more
Now my little bitch wanna fuck my bitch and I'm a let her fuck her
Pull up in a new estate, I got a Bentley truck
Got ciroc, in the shot, like it came from Diddy

Got 100 wild niggas that won't change for pussy
Hey how you doin' let me whisper in your ear?
Tell you a lil something you might like to hear
You know I be with star niggas like Trippie Redd
And if I whip this dick out girl you're giving me head[Chorus: Trippie Redd]
We stay lit, all that shit
Damn lil baby what you call that shit?
Thats the red nose shawty you a dog, lil bitch
Touch the damn floor with your paws, lil bitch
Shake that fat ass on my balls, lil bitch
Damn lil baby what you call that shit?
Shaking all off the wall, what you call that shit?
Damn lil baby what you call that shit? Yeah
