

Opticon

Orgy

Let's fake an answer for the curious
Let's fake it all for the fame
They'll think delivering was easy
Living the fairy tales and the lies, lies
Message from opticon
Blast from the fashion bomb
So helpless, guess what?
You're out of time
Message from opticon
Blast from the fashion bomb
So helpless, guess what?
You're out of time
New aliens spawn, we reinvent the dawn
And no one's style compares
Those neon eyes make mom and dad think that we've lost our minds
They're just terrified of all new things
Message from opticon
Blast from the fashion bomb
So helpless, guess what?
You're out of time
Message from opticon
Blast from the fashion bomb
So helpless, guess what?
You're out of time
Opticon is here to lead us (Blast from the fashion bomb)
Message from opticon
Blast from the fashion bomb
So helpless, guess what?
You're out of time
Message from opticon
Blast from the fashion bomb
So helpless, guess what?
You're out of time
Message from opticon
Blast from the fashion bomb
So helpless, guess what?
You're out of time
So quick to change us
Opticon is here to lead us
(And imitate us)
