Here's to Us

Kevin Rudolf

Everybody's got a story they must tell an'
You got yours and i got mine
All the times you felt the pain and seen the glory
It feels good to be aliveNow i can hear the sound
Of heartbeats all around
You know there's magic in the night
When you feel all alone
Like you're so far from home
Something always turns out right
So here's to us
And all our broken dreams
That never came to pass
We're still kings and queens
Here's to all we loved
That wasn't meant to last
Here's to everyone
Who said we never had a chance
Here's to usMonday comes around
Your world is upside down
Feeling good in the worst way
The story's just beginning
Time we did some living
I can't wait to hear you say
It's on the radio
It's everywhere we go
The music's gonna save your life
So come on clap your hands
Remember when we danced
And raise your glass tonightSo here's to us
And all our broken dreams
That never came to pass
We're still kings and queens
Here's to all we loved
That wasn't meant to last
Here's to everyone
Who said we never had a chance
Here's to usThe night feels so long
When your heart's not filled with song
And may your dreams never leave you
Even when you've lost it all...So here's to us
And all our broken dreams
That never came to pass

We're still kings and queens
Here's to all we loved
That wasn't meant to last
Here's to everyone
Who said we never had a chance
Here's to us
To all we loved
And all we lost
To everyone
Here's to us
To broken dreams
And kings and queens
To everyone raise your glass
Here's to us
