These Days

Mandisa

I never liked Mondays or bad news
Or breaking in new shoes
And mornings when I can't find my phoneNobody likes traffic or short nights
Or sit-ups or long flights
But sometimes that's just the way it goes
It's funny what You use to help me growSo I'll learn to love these days
Life along the way
In the middle of the crazy
God, Your love is so amazingThrough the ups and downs
You're the only hope I've found, oh
Lord, You meet me in the madness
So I'll learn to love these days
I'll learn to love these days
I can see silver lining
When the sun's not shining
Even when You choose to bring the rainOh, but there's freedom believing
And trusting Your leading
'Cause You're Lord of all my joy and all my painSo I'll learn to love these days
Life along the way
In the middle of the crazy
God, Your love is so amazingThrough the ups and downs
You're the only hope I've found, oh
Lord, You meet me in the madness
So I'll learn to love these days
I'll learn to love these days
I could wait for hundred years
You gave me here
The days when You were near
The days when I was out there
Looking for what comes next, oh'Cause every minute, every hour
Everyday is such a gift and I'm content
I'm thankful for each breathSo I'll learn to love these days
Life along the way
In the middle of the crazy
Your love is so amazingThrough the ups and downs
You're the only hope I've found, oh
Lord, You meet me in the madness
So I'll learn to love these days
I'll learn to love these daysI'll learn to love these days
I'll learn to love these days
