

All Of Us (feat. Ollie Gabriel)

[PNAU](#)

Yeah ooh
If a shark stops swimming it dies
And I can't stay alive if I can't dance tonight
If I can't lose my mind
Un-weave those strands of time
Then I can't stay alive
Yeah
If a shark stops swimming it dies
And I can't stay alive if I can't dance tonight
If I can't lose my mind
Un-weave those strands of time
Then I can't stay alive
Gotta move on in
Till your body's here
Let my arms extend
Feel the warmest skin
Gotta move on in
Till your body's here
Let my arms extend
Feel the warmest skin Do you really wanna work all day?
They really don't care if we want to play
Do you really wanna work all day, all day?
They really don't care if we want to play Now we're climbing, reaching, all of us
Wake up looking searching for that morning rush
We've been floating out there, moving dust
Wake up, looking, searching just like all of us
Yeah ooh
If a shark stops swimming it dies
And I can't stay alive if I can't dance tonight
If I can't lose my mind
Un-weave those strands of time
Then I can't stay alive Do you really wanna work all day?
They really don't care if we want to play
Do you really wanna work all day, all day?
They really don't care if we want to play Now we're climbing, reaching, all of us
Wake up looking searching for that morning rush
We've been floating out there, moving dust
Yeah we wake up looking searching just like all of us Now we're climbing, reaching, all of us
Wake up looking searching for that morning rush
We've been floating out there, moving dust
Yeah we wake up looking searching just like all of us
