

Slammin' Kinda Love

A*Teens

Oh yeah
You and me, baby, we've got a slammin' kinda love
The days that I've spent apart from you
Have been really hard for me
I wanted to be so close to you
And to live my fantasy
Now you've got me climbing on the walls
I can't wait to put down my books and run to you
And now I'm just waiting for your call
Let's go driving down by the sea tonight, baby
All that I've got
I wanna give you
Over and over and over again
Baby, I am down with the games you wanna play
You have got me going now in every single way
I know you can give me the things I'm dreaming of
'Cause you and me, baby, we've got a slammin' kinda love
The way that you're moving to the beat
It's impossible to not look at you, baby
I wanna stay closer to your heat
There's a fire burning inside my body, girl
And all that I've got
I wanna give you
Over and over and over again
Baby, I am down with the games you wanna play
You have got me going now in every single way
I know you can give me the things I'm dreaming of
'Cause you and me, baby, we've got a slammin' kinda love
I will give you the world, give you
the world
Give you the world, give you all my loving
Baby, baby, let me give my love to you
I will give you the world, give you the world
Give you the world, give you all my loving
Over and over and over again
Baby, I am down with the games you wanna play
You have got me going now in every single way
I know you can give me the things I'm dreaming of
'Cause you and me, baby, we've got a slammin' kinda love
Baby, I am down with the games you
wanna play
You have got me going now in every single way
I know you can give me the things I'm dreaming of
'Cause you and me, baby, we've got a slammin' kinda love
Baby, I am down with the games you
wanna play
You have got me going now in every single way
I know you can give me the things I'm dreaming of
'Cause you and me, baby, we've got a slammin' kinda love
