

# Fiction (Dreams In Digital)

## Orgy

She's lost in coma where it's beautiful  
Intoxicated from the deep sleep, deep sleep  
Do you wonder what it's like  
Living in a permanent imagination?  
Sleeping to escape reality, but you like it like that  
Guilty by design, she's nothing more than  
fiction  
She dreams in digital  
'Cause it's better than nothing  
Now that control is gone  
It seems unreal  
She's dreaming in digital  
She dreams in digital  
And your pixel army can't save you now  
My finger's on the kill switch  
I remember I used to compose your dreams (control your dreams)  
And don't be afraid to expose yourself before I shut you down  
You made some changes since the virus caught you sleeping  
Guilty by design, she's nothing more than fiction  
But she dreams in digital  
'Cause it's better than nothing  
Now that control is gone  
It seems unreal  
She's dreaming in digital (dreams in digital)  
'Cause it's better than nothing  
Now that control is gone  
It seems unreal  
She's dreaming in digital (dreams in digital)  
She dreams in digital (Dreams in digital)  
She dreams in digital  
She's guilty by design  
'Cause it's better than nothing  
Now that control is gone  
It seems unreal that she's dreaming in digital  
(She's nothing more than fiction)  
'Cause it's better than nothing  
Now that control is gone  
It seems unreal, she's dreaming in digital (Dreams in digital)
