Until the Wolves Come Out

NateWantsToBattle

Sing it out loud till your lungs give out, yeah
Scream it out loud till the wolves come out
Sing it out loud till your lungs give out, yeah
Scream it out loud till the wolves come outThink I broke down with both of my hands
Castles built up from watered down sands
Sing, oh, whoa, whoa
I gotta sing it out loud till my lungs give out
Through the rivals, the voice in my head
Tell me "Back up", and leave it for dead
Sing, oh, whoa, whoa
I gotta scream it out loud till the wolves come out
Scream it out loud till the wolves come out
Now, I'll wait for tomorrow
For mistakes that we can make tonight
Sing it out loud till your lungs give out
Now, I say the end of sorrow
When I don't wanna make it dry
Scream it out loud till the wolves come outBroken mirrors, and what do I see?
A man with no face, he's looking at me
I know I got a million scars, wear 'em all on my sleeves
Man, did I spark it? Breaking down souls
Hit the gas, but with nowhere to go
No, whoa, whoa
I got a million problems, you know they're all me
A million problems, you know they're all me
Now, I'll wait for tomorrow
For mistakes that we can make tonight
Sing it out loud till your lungs give out
Now, I say the end of sorrow
When I don't wanna make it dry
Scream it out loud till the wolves come outScream it out loud till the wolves come out, yeah
Sing it out loud till your lungsNo, sing it out loud till your lungs give out
Now, I say the end of sorrow
When I don't wanna make it dry
Scream it out loud till the wolves come outNow, I'll wait for tomorrow
For mistakes that we can make tonight
Sing it out loud till your lungs give out
Now, I say the end of sorrow
When I don't wanna make it dry
Scream it out loud till the wolves come out
Scream it out loud till the wolves come out
