Circles (feat. Ruby Prophet)

Audien

Pacing through the desperation we had
Soon I'll do it all again
We could play it safe
And we could take it slow
Or find out where the circle ends.
Cause we're the ones who go where we want to
And not a second left to waste.
Cause we've got futures to unfold
And there are stories left untold
And when it feels like coming home it's you and I,
And our dreams we have are coming faster
Circles that we follow, and it
Feels like coming home it's you and I.
Cause we've got futures to unfold
And there are stories left untold
And when it feels like coming home it's you and I,
And our dreams we have are coming faster
Circles that we follow, and it
Feels like coming home it's you and I.
You and I.
