Action Needs an Audience

Jimmy Eat World

I'm hypnotized by rituals
Now that I am on my own
Tranquilized like an animal
All because I lost controlAre you tuning into our conversation?
Oh yeah, you'll get your chance
The bigger, the brighter the illuminated
Control the audienceThe weight of the world has dragged you down
And took with it what you've earned
Communication's lost to the radio
Burning all your bridges downI may never be quite satisfied
But that's the only way I know
I am overcome with sympathy
For your, for your pathetic soul
Are you tuning into our conversation?
Oh yeah, you'll get your chance
The bigger, the brighter the illuminated
Control the audienceAre you tuning into our conversation?
Oh yeah, you'll get your chance
The bigger, the brighter the illuminated
Control the audienceBreathe in the air while you still can
Take all that you have while you still can
Sleep all night while you still can
BreatheAre you tuning into our conversation?
Oh yeah, you'll get your chance
The bigger, the brighter the illuminated
Control the audience
Are you tuning into our conversation?
Oh yeah, you'll get your chance
The bigger, the brighter the illuminated
Control the audience
