

How Do

T.S.O.L.

Well I don't mind if you drink or smoke,
It makes no difference to me.
But when you start puttin' words in my throat,
The point there I just can't see.
See I'm the kinda guy who's easy to please,
I just do what I do.
Nothing gonna make me change my ways.
Not money, not drugs, not even you. So don't mind my mind
It's just another thought to pass the time, How Do...
Well everybody do what you wanna do,
Gonna work now naturally.
No one here gonna tell you how,
Or tell you what to see.
See life is easy and it's not that hard,
If you know what you gotta do.
So go make it happen cause life is action,
And fate is up to you. So don't mind my mind
It's just another thought to pass the time, How Do...
Well we don't mind if you drink or smoke,
It makes no difference to us.
But when you start puttin' words in our throats,
The point there we just can't see.
See we're the kinda guys that are easy to please,
We just do what we do.
Nothing gonna make us change our ways.
Not money, not drugs, not even you.
