# Illuminate

## GTA

Uh, I'm loving your texture
'Cause everything's as soft as a feather
So when you see me stare at your eyes, I feel your energy
Our symmetry is equal in life, baby
It's the way that you're glowing tonight
Little Tinker Bell, you make me feel our fantasy life
You light the room and consume every shadow in sight
What are like you are part of a higher order of shine
Uh, so heavenly
A sight for sore retinas, literally
I can show you to the blind, you can make them see
I'm beginning to believe you were made for me, you were made for me
When fireflies, united
It's just like diamonds, like diamonds shining bright
When this fireflies, united
Ain't no stopping, we'll illuminate the night, illuminate the night
Illuminate the night, illuminate the night
Illuminate the night, illuminate the nightAin't no stopping, we'll Illuminate the night, Illuminate the nightGlow baby girl, glow baby girl yeah, yeah, yeah
Glow baby girl, glow baby girl yeah, yeah, yeah
Glow baby girl, glow baby girl yeah, yeah, yeah
Glow baby girl, glow baby girl yeah, yeah, yeah
And all I see is fireflies, when I walk in the roomKnew it from their eyes, all I see is fireflies
All I see is fire-all I see is fire-fire-fire-fire-fire
When fireflies, united
It's just like diamonds, like diamonds shining bright
When this fireflies, united
Ain't no stopping, we'll illuminate the night, illuminate the night
Illuminate the night, illuminate the night
Illuminate the night, illuminate the night
Illuminate the night
