Wild

John Legend & Gary Clark Jr.

I just bought a new car
One where the top goes down
So we can see the starsI wanna take you so far
Out past the Saturn rings
And into my heartI wanna drive you
Wild, wild, wild
I wanna love you
For miles and miles
We can go slow
We don't need to rush
I'll take the wheel, make you feel every touch
I wanna drive you
Wild, wild, wild
Lay on the passenger's side
Tell me how fast you want?
We'll get there tonight
Oh, oh, oh, fire
You set me on fire
I swear you're the only one
I'd take on this rideI wanna drive you
Wild, wild, wild
I wanna love you
For miles and miles
We can go slow
We don't need to rush
I'll take the wheel, make you feel every touch
I wanna drive you
Wild, wild, wild
Yeah
Wanna love you, wanna touch you, wanna drive you (Wild, wild, wild)
Oh, wanna love you, wanna touch youI wanna drive you
Wild, wild, wild
And I wanna love you
For miles and miles
We can go slow
We don't need to rush
I'll take the wheel, make you feel every touch
I wanna drive you
Wild, wild, wildYeah, I wanna drive you
Wild, wild, wild
