

# The Man Who Played God (feat. Suzanne Vega)

## Danger Mouse & Sparklehorse

Think about the world you love  
Now think of where it wants to go All things you can see around you  
You can change them  
Rearrange them in your mind If you've heard tales of transformation  
Well then one two three,  
You could be the man who played god Hammer it until it breaks  
To every shape that nature makes  
All things you can see around you  
You can change them  
Rearrange them in your mind If you heard tales of transformation  
Well then one two three  
You could be the man who played god The girl becomes a bird on a flower  
In your state you feel your power All things you can see around you  
You can change them  
Rearrange them in your mind If you've heard tales of transformation  
Well then one two three  
You could be the man who played god  
One two three, you could be  
The man who played god  
One two three, you could be  
The man who played god  
One two three, you could be  
The man who played god
