

# Hide (Final DJs Remix) [feat. Miss Kittin]

[Kris Menace](#)

I see you in the crowd and you try to hide  
When you think you're alone I can read your mind

You can hide,  
you can hide,  
you can hide

I know who you are, but you still hide

Show me the man who is inside

You can hide,  
you can hide,  
you can hide

Deep into the light I hold you tight
