Stranded

GOJIRA

A growing sickness in the heart
Distinctive lack of control
The cure is somewhere in the silence
But I'm crushed by the noise inside
Don't lock the door on me
You killed me face down dead
Another part of me, falls for you
Another day in the dark
NOO.
NOOO.
Stranded in the night
Stranded in the cold
Don't lock the door on me
You killed me face down dead
Another part of you, gone to waste
Please hear me out
You killed me face down dead
Another day in the dark
Don't lock the door on me
You killed me face down dead
Another part of you, gone to waste
Please hear me out
You killed me face down dead
Another day in the dark
