Think of Me When They Sound

Circa Survive

How long will it take,
How long will you wait for me,
I don't want to bring you down,
Any more than I have,
I just want to think you've left,
And it means everything,
How long will you wait (we won't make it out)
I can't stand to feel this brave awake (we won't make it out)Church bells,
Church bells,
How long will you wait (we won't make it out)
How long will you wait for me (we won't make it out)
How much can you take (we won't make it out)
How long will you wait for me, dear.
