Todrick Hall

I know how to pick 'em
I know how to trick 'em into tricking me
'Cuz they know I leave my heart on my sleave yeah
And if you wanna date me, just manipulate me
Honey I'll be the lead
All the sweet little lies they tell
Yeah they cheat but they look so swellOn my arm
Smell that charm
What's the harm in trying it on
And if he don't wanna whine and dine then sign me up
I got 99 problems but I'll take one more
I love shopping at the asshole store
And if you don't know how to treat me right
Take my number cuz you're just my type
And I know I'm fucked up, lucky you
I'm lookin' for someone a little fucked up too
If you wanna break my heart tonight
Come on over 'cuz you're just my type, yeahYou're just my, you're just my type (my type)
You're just my, you're just my type (you're just my type)
You're just my, you're just my type (yeah)
Oooh, you're just me typeI know how they do me
But how do they tattoo me everytime they leave
And I swear right then that I'll never let it happen againno
If you wanna upset me, just forget to text me
Honey I'll be the lead
All my deep insecurities
All I need is security for my heart
It's not hard
What's the harm is paying the part
And if he's just gonna break me down again
Then count me inI got 99 problems but I'll take one more
I love shopping at the asshole store
And if you don't know how to treat me right
Take my number cuz you're just my type
And I know I'm fucked up, lucky you
I'm lookin' for someone a little fucked up too
If you wanna break my heart tonight
Come on over 'cuz you're just my type, yeahYou're just my, you're just my type (my type)
You're just my, you're just my type (you're just my type)
You're just my, you're just my type (yeah)
Oooh, you're just me typeI got 99 problems but I'll take one more
I love shopping at the asshole store

And if you don't know how to treat me right
Take my number cuz you're just my type
And I know I'm fucked up, lucky you
I'm lookin' for someone a little fucked up too
If you wanna break my heart tonight
Come on over 'cuz you're just my type, yeahYou're just my, you're just my type (you're my type)
You're just my, you're just my type (you're just my type)
You're just my, you're just my type (baby)
Oooh, you're just me type
