

Bed Bugs (feat. Nessly, Yung Pinch & Takeoff)

Carnage

Will you be there when the [?] runs out
Tell my secrets, don't you run your mouth
Let you in but I might kick you out
Pull out something new and took a different route
I was changing your life
Which ain't a surprise
I give you the vibe
Can't be created if you tried
If you [?] then you mine
Got you forever for life
Don't mean I'm too good for you
Just cause I'm in love with this ice I can't always catch you when you fall
I can't always answer when you call
You're always tryna get your friends involved
You need to chill out with that tripping in the mall
I was staying out the way
But I ain't tripping on that no
It's been forever and a day
I'm just trying keep it real
I just wanna get paid
I just want a couple mill
Big house in the hills someday
Foreign outside of my driveway
Shawty don't fly unless it's private
Whenever you round, she wanna leave
Whenever I'm there she exotic
I got her wet like Poseidon
I know that she wilding
I know that she wilding
I know that she wilding, she can't hide
Will you be there when the [?] runs out
Tell my secrets, don't you run your mouth
Let you in but I might kick you out
Pull out something new and took a different route
I was changing your life
Which ain't a surprise
I give you [?] the vibe
Can't be created if you tried
If you then you mine
Got you forever for life
Don't mean I'm too good for you
Just cause I'm in love with this ice I can't always catch you when you fall

I can't always answer when you call
You're always tryna get your friends involved
You need to chill out with that tripping in the mall
I can't always answer when you call
I can't always been there when you off
I can't always catch you when you fall
But I can make up for it when we ball
I'm talking bout the lean on rocks
Still have an active stock
I'm talking bout the price so high
So high have your stomach in knots
She told me she want attention
Don't like what I'm sipping
Said make decision
Then pour out my drink in the drain in the kitchen
But you tripping Will you be there when the [?] runs out
Tell my secrets, don't you run your mouth
Let you in but I might kick you out
Pull out something new and took a different route
I was changing your life
Which ain't a surprise
I give you the vibe
Can't be created if you tried
If you [?] then you mine
Got you forever for life
Don't mean I'm too good for you
Just cause I'm in love with this ice I can't always catch you when you fall
I can't always answer when you call
You're always tryna get your friends involved
You need to chill out with that tripping in the mall
Don't let the bed bugs bite you
Don't let the bed bugs bite you
Don't let the bed bugs bite you
Don't let the bed bugs bite you
Don't let the bed bugs bite you
Don't let the bed bugs bite you
Don't let the bed bugs bite you
Don't let the bed bugs bite you
