

# Discovery

Kailee Morgue

Lonely road  
Where will you go  
Searching for something I don't know  
I screamed out and someone listened  
I saw a light out in the distance  
I've been out here searchin'  
All my bridges burnin'  
Kept my heart a virgin  
For you  
You are my discovery  
Everything I'll ever need  
You are my discovery  
It's so hard to find this feeling  
You are my discovery  
Opened up my eyes to see  
You are my discovery  
It's so hard to find this feeling  
You lit a spark  
You kept me warm  
When I was breaking in the storm  
Oh breaking heart don't you fade  
Do you know the life that you've saved  
I've been out here searchin'  
All my bridges burnin'  
Kept my heart a virgin  
For you  
You are my discovery  
Everything I'll ever need  
You are my discovery  
It's so hard to find this feeling  
You are my discovery  
Opened up my eyes to see  
You are my discovery  
It's so hard to find this feeling  
And wherever you go, I go  
Yeah wherever you go,  
Follow you, lead the way  
You know I know  
You are my discovery  
Everything I'll ever need  
You are my discovery  
It's so hard to find this feeling

You are my discovery  
Opened up my eyes to see  
You are my discovery  
It's so hard to find this feeling  
And wherever you go, I go  
Yeah wherever you go,  
Follow you, lead the way  
You know I know  
And wherever you go, I go  
Yeah wherever you go,  
Follow you, lead the way  
You know I know  
You are my discovery
