Us

James Bay

Sometimes I'm beaten
Sometimes I'm broke
'Cause sometimes this city is nothing but smokeIs there a secret?
Is there a code?
Can we make it better?
'Cause I'm losing hopeTell me how to be in this world
Tell me how to breathe in and feel no hurt
Tell me how cause I believe in something
I believe in us
After the wreckage
After the dust
I still hear the howling
I still feel the rush
Over the riots, above all the noise
And through all the worry
I still hear your voiceTell me how to be in this world
Tell me how to breathe in and feel no hurt
Tell me how 'cause I believe in something
I believe in us
Tell me when the light goes down
That even in the dark we can find a way out
Tell me now 'cause I believe in something
I believe in us
We used to be kids living
just for kicks
In cinema seats learning
how to kiss
Running through streets, they were painted gold
We never believed we'd grow up like thisTell me how to be in this world
Tell me how to breath in and feel no hurt
Tell me how 'cause I believe in something
I believe in us
Tell me when the light goes down
That even in the dark we can find a way out
Tell me now 'cause I believe in something
(I believe)
I believe in us
(I believe in)
I believe in something
(I believe)
I believe in us
