

Anymore (Re-Recorded)

Roy Drusky

I don't believe you love me anymore. Lately you've been actin' strange to me
Somehow it's not the way it used to be
You're doin' things you never dared to do before
And I don't believe you love me anymore. I felt your love grow colder day by day
When I tried to hold you close you turn away
There must be someone else you're longin' for
And I don't believe you love me anymore.
--- Instrumental --- Greener pastures now you think you've found
But what will happen when the grass turns brown
I'm hearin' things on you I've never heard before
And I don't believe you love me anymore.
I felt your love grow colder day by day
When I tried to hold you close you turn away
There must be someone else you're longin' for
And I don't believe you love me anymore. No I don't believe you love me anymore...
