Cruisin

Jay Prince

I tell them I'm cruisin, ridin', coastin', ridin'
I tell them I'm cruisin, ridin', coastin', ridin'
I tell them I'm cruisin, ridin', coastin', ridin'
I tell them I'm cruisin, ridin', coastin', ridin'
I tell them I'm cruisin, ridin', coastin', ridin'
And this time I'ma get it right
Cruisin, ridin', coastin', ridin'
And this time I'ma get it right now
Ridin', coastin'
And this time I'ma get it right, oh yeah
Yeah, I come through, I tell a nigga like this
Can a kid get some, ah
It's been a long time coming but we on, ah
'Cause B and Jay don't kill âE˜em, hold on, ah
And it's the same old feeling, see the hate
Don't feel it, hold up my nigga, but I know what's up
True love in the hood, homie yes sir
But really you don't wanna get it messed up
My dad never said anything when he left us
Put me on a disk when you saying the next up
And I don't give a damn if you 2 gonna best off
It'll still be a show if you calling my name up
Yeah I kill them with the flow this is time that we take on
If I wake you for later, nigga I be Jay Sean
If you wait for nigga won't find a replacement
I tell them that it's time that I get it this time
I'ma ride for my niggas dreamclub
Be the scrub for the many years
Say don't forget it, you'll be in it, I ain't finished
Same time that I'm feeling you are feeling
It ain't by association, no joke, I ain't playing
I'm just hoping that we make it out this journey right
Oh, this is just another night
Of a nigga thinking deep, when he can't sleep
Nigga still weak, when think of real please
Best believe real niggas rather be up in the east
I should feel it when she tells it
I tell them I'm cruisin, ridin', coastin', ridin'
I tell them I'm cruisin, ridin', coastin', ridin'
I tell them I'm cruisin, ridin', coastin', ridin'
I tell them I'm cruisin, ridin', coastin', ridin'
I tell them I'm cruisin, ridin', coastin', ridin'

And this time I'ma get it right
Cruisin, ridin', coastin', ridin'
And this time I'ma get it right now
Ridin', coastin'
And this time I'ma get it right, oh yeahAnd that was up to finish, I can say this to beginning
Just to show you I'ma get it
Told my mama that I get it
I'm speaking from the heart
So I know it make you feel it
I come from years back
Nobody wanted to get involved
That's okay, thought I know how to feel it
That's a good thing I'm offence, shows in one
Brother from the east, I roll may duff
Made us lay off, gonna blow like the propane dust
Old played bars, in the game
I'm just tryina be the balance
I'm just tryina be the game changer
The name they suck, they should make a home
Just wanna buck, just wanna ride
This shit make you wanna fight for your rights
I'm living in a world where they would come for your life
Oh why, that's the question that they ask all the time
Time, I ain't really had enough of that
When I moved south, when we had enough for us
Really you had to be the man, had enough for practice
My little bro had to live life without a map
Really wish it didn't had to come to that
Really wish the homies just say they have my back, have my back
But really, that's reality, I still got my sanity
Do you really got???Damn, I've been living life like I'm sitting on lies
And I don't wanna tell me that the sun don't shine
And maybe I just wanna make all things right
Maybe I just wanna go off for tonightI tell them I'm cruisin, ridin', coastin', ridin'
And this time I'ma get it right now
And this time I'ma get it right now
This time I'ma get it right now
