Dancing Around It

Charles Kelley

No, we don't have to know better
We know what we want
And if he treated you better
You wouldn't have come
To tell the truth, I saw this coming
Is it the rain or is it the pain-got your mascara running?You've got the fire in your eyes burning through the night
Oh, I know what you came for
There's a storm rolling in, soaking in the skin
So, baby, let the rain pourI know you (just keep dancing, just keep dancing around it)
You don't have to say nothing at all
I know you (just keep dancing, just keep dancing around it)
We can just keep dancing around it
I know what you're thinking right now
I'm thinking it too
We ain't gotta say it out loud
Yeah, we'll just play it cool
Whatever you do, just don't say it's nothing
Cause we both know you wouldn't have shown
If you didn't feel somethingYou've got the fire in your eyes burning through the night
Oh, I know what you came for
The way you move out of time, body next to mine
So, baby, let the wine pourI know you (just keep dancing, just keep dancing around it)
You don't have to say nothing at all
I know you (just keep dancing, just keep dancing around it)
We can just keep dancing around it, yeahNo, we can't fight it
We ain't never gonna just be friends, oh
I'm tired of trying to hide what we've always been
Oh, I know you (just keep dancing, just keep dancing around it)
You don't have to say nothing at all
I know you (just keep dancing, just keep dancing around it)
We can just keep dancing around itI know you (just keep dancing, just keep dancing around it)
You don't have to say nothing, have to say nothing
You (just keep dancing, just keep dancing around it)
OhWe can just keep dancing around it
Just dancing around it
Oh, I know what you came for
So, baby, let the rain pour
