

Terminal Spirit Disease

At the Gates

Can you feel the pain I feel?
I've lost all sense of what is real
I'm lost, in a world I detest Can you feel the pain I feel?
This wound I've got will never heal
I'm lost, in the serpents own nest Oh - set me free - crucify life itself
And let your joy be the reality
Our suffering life - the dream
Pain, the highest order
Scorching the inside of my skin
Terminal spirit disease
An itch of thirst twisting my tortured nerves Kill the worm that is depression
Join the leeches of oppression
Unpure - twisted - logic now die Kill the worm that is depression
My fevered circle - circle of damnation
Consumed by this torment divine
Terminal spirit disease
Terminal spirit disease Your souls condemned to sing of life
Must die to be set free
