Belong to the World

Oddisee

The wind in the sky
Please gather the clouds
And close the way of the wind
I need to make the beautiful dancer
Like a muse, so i can keep looking at her
Too bad if you forget about me
I have to live with it
We swear by God we will be together forever
Now im worried God will take your soul
Because you broke your promise
Like the fire which guards light up to search things
Burns up in the night
And fades into the daylight
Just as my love and thoughts of you
Burn in the night and fade into the sun
I know you want your money, girl
Cause you do this every day, okay
The way you doubt your feelings
And look the other way
Well, it's something I relate to
Your gift of nonchalance
Nobody's ever made me fall in love
With this amount of touchI'm not a fool
I just love that you're dead inside (that you're dead inside)
I'm not a fool, I'm just lifeless tooBut you to taught me how to feel
When nobody ever would
And you taught me how to love
What nobody ever could
Ooh girl, I know I should leave you
And learn to mistreat you
Cause you belong to the world
And ooh girl, I want to embrace you
Domesticate you
But you belong to the worldAnd I know that I'm saying too much
Even though I'd rather hold my tongue
And I'll pull you closer holding on to
Every moment till my time is done
And this ain't right, you've been the only one to make me smile
In so long, I've succumb to what I've become, babyOoh girl, I should leave you (I know I should leave you)
And learn to mistreat you (And learn to mistreat you)
Because you belong to the world

And ooh girl, I wanna embrace you
Domesticate you
But, you belong to the world You belong to the loneliness of filling every need
You belong to the world, you belong to the world
You belong to the temporary moments of a dream
