## **Left to My Own Devices (7" Version)**

## **Pet Shop Boys**

I get out of bed at half past ten phone up a friend who's a party animal

Turn on the news and drink some tea

Maybe if you're with me we'll do some shoppingOne day I'll read or learn to drive a car

If you pass the test, you can beat the rest but I don't like to compete or talk street, street

I can pick up the best from the party animalI could leave you

say good-bye

or I could love you

if I try

and I could

and left to my own devices

I probably would

Left to my own devices

I probably would

Pick up a brochure about the sun

Learn to ignore what the photographer saw

I was always told that you should join a club

stick with the gang if you want to belong I was a lonely boy, no strength, no joy

in a world of my own at the back of the garden

I didn't want to compete or play out on the street

for in a secret life I was a Roundhead generalI could leave you

say good-bye

or I could love you

if I try

and I could

and left to my own devices

I probably would

Left to my own devices

I probably would

Oh, I would

I was faced with a choice at a difficult age

Would I write a book? Or should I take to the stage?

But in the back of my head I heard distant feet

Che Guevara and Debussy to a disco beatIt's not a crime when you look the way you do

the way I like to picture you

When I get home, it's late at night

I pour a drink and watch the fight

Turn off the TV, look at a book

pick up the phone, fix some food

Maybe I'll sit up all night and day

waiting for the minute I hear you sayI could leave you

say good-bye or I could love you if I try and I could and left to my own devices I probably wouldCome on, baby say good-bye I could love you if I try and I could and left to my own devices I probably would Left to my own devices I probably wouldOut of bed at half past ten the party animal phones a friend Picks up news about the sun and the working day has just begun Sticks with the gang at the back of the street Pass the test and he don't compete Drive the car, if you're with me Che Guevara's drinking tea He reads about a new device and takes to the stage in a secret life (I would if I could)Left to my own devices I probably would If I was left to my own devices I possibly would (I would if I could) If I was left to my own devices I probably would If I was left to my own devices I probably wouldI could leave you say good-bye or I could love you if I try and I could and left to my own devices I probably would Left to my own devices I probably would Come on, baby Left to my own devices I probably would
