The Margretville Dance

The Prize Fighter Inferno

Between you and me
In how cautious we have become
Leaving you hooked and off the floor
To think the better you might have known
With age
With every breath
You wake a picture instilled the way
I wish you had lived
With cause through pain
No, no matter
You died the same
MachineSo tell me like you want to
(Here we come to rock your body all...)
If you want me too
(Here we come to rock your body all night)
Who's to blame
In a matter of fact I might
Purely suggest
We tell the truth,
From here on out we walk the straight
Afraid
What will they do
Should we weather this new reply?
Patiently wait
Your proper end,
From shameless motive to hollow sin
You'll waitSo tell me like you want to,
(Here we come to rock your body all...)
If you want me too,
(Here we come to rock your body all night)
'Cause I don't
Want you to come around here
I just
Want you to go
I don't
Want you to come around here
I just
Want you to knowIs this the way you
Is this the way you
Is this the way you
Watch the body die?('Cause I don't want your)

I said love before you rot
