Can't Forget You (feat. The Nicholas)

San Holo

I'm shifting my mind to get around you
Still hiding from the truth that's getting on
I'm shifting my mind, no I can't save youI've changed my point of view
Appointed for the truthCan't forget you, can't forget you, you, you
Can't forget you, can't forget you, you, you
Can't forget you, can't forget you, you, you
Can't forget you, can't forget you, you, youI'm drifting around to get a chance to
Believe my mind is changing on at all
I've changed my point of view
I thought I found the truth
I thought it's a dreaming up
But no I don't
Can't forget you, can't forget you, you, you
Can't forget you, can't forget you, you, you
Can't forget you, can't forget you, you, you
Can't forget you, can't forget you, you, you
