Bleed the Same (feat. TobyMac & Kirk Franklin)

Mandisa

I wanna say something to everyone
In a spirit of humility, a spirit of meekness
And a spirit of Christ-like loveThere's chaos and calamity in the world
And there's so much hurt and distrust
When police are killed
We need to say something
When black boys are killed
We need to say something
And when we don't say something
We're saying something
We have the spirit of redemption when we speak;
At our concert and our churches
I beg of you
Let's ask the people that we are accountable to stand in front of
To pray with us
For healing
