

Hallelujah California

Luna Shadows

They say: sit in the sun enough,
Your hair's gonna lighten up"
It's true I drove to silverlake and parked my car
Ran around the reservoir
Found proof Now everyday is summertime
Los Angeles if you'll be mine
Then I'll stay lonely only for you Meet me on the east side
We can taste the sweet life
Silver screens
Take it to the west side
Breaking in the best high
Vitamin D til we bleed
My daddy always warned that the saddest songs are major keys
Hallelujah California
California
So, come kick it down on Saturn's rings
Observatory empty wings with me
Then we'll roll to origami record night
Talk about our vinyl lives
Emily lends a beat for all the cherry cola pin up queens,
Boulevard of broken dreams
It's fucked up as seen on TV Meet me on the east side
We can taste the sweet life
Silver screens
Take it to the west side
Breaking in the best high
Vitamin D til we bleed
My daddy always warned that the saddest songs are major keys
Hallelujah California
California
Meet me on the east side
We can taste the sweet life
Silver screens
Take it to the west side
Breaking in the best high
Vitamin D til we bleed
My daddy always warned that the saddest songs are major keys
Hallelujah California
California
