t Yoonmirae - Always English Translation

When I see you, everything stops

I don't know since when

One day, you came to me like a dream

You shook up my heart

I knew that it was destiny

I Love You

Are you listening?

Only You

Close your eyes

Your love came scattered with the wind

whenever, wherever you are

whenever, wherever you are

ohohoh love, love, love

How did I come to love you?

I tried pushing you out but my heart recognizes you

I Love You

Are you listening?

Only You
Close your eyes
Even if everything changes, this won't change
You are my, I am your love
Even if you take a little time to come back
Even if you pass over me
It's alright, I'll be here for you
I Love You
Don't forget
Only You
The confession of my tears
Your love came scattered with the wind
whenever, wherever you are
whenever, wherever you are
