

# Transmigration Macabre

## Arch Enemy

Trapped in a downward spiral of pain  
Horrific memories, your life flashing by  
There is no life left for you to live  
You've had your share and more  
Act of transfusion - blood child!  
Transmigrate into the future or the past  
Eternal damnation awaits you my love  
In the kingdom of the sick and the rotting dead  
You will suffer excruciating pain  
You shall now reap the twisted fruit  
Of what you once sowed  
Transparent - revealing the lies  
Transmutation - What you have become  
Act of transfusion - blood child!  
Transmigrate into the future or the past  
(Chorus:) Transmigration macabre
