Ready for You

Erik Hassle

Tryin to call you, pick up
I'm too drunk to stand up
The taste of her lips
Is sweet but can't compare to yoursSince that night you walked out the door
Must remember to sleep,
Must remember to eat
That night ain't comin no moreThat's the way it is
When I was with you
Ready for you
Ready for you
All these smiling faces
Don't know how to shut up
Can't read a word you're saying, no
People better back offBut why can't we just meet up back home?
Cause I got nowhere to sleep,
Got nowhere need to be
Don't you look at fuckin elseThat's the way it is
When I was with you
Ready for youSince that night you walked out the door
Must remember to sleep,
Must remember to eat
That night ain't comin no more
That's the way it is
When I was with you
Ready for you
When I was with you
Ready for you
