# Come n Go (feat. Enrique Iglesias)

## Pitbull

I make the girls go!
I make the girls go!
I've been around the world, and back
Seen a little bit of everythingHeard a lot, learned the lot, on how to hit the spot, ding, ding, ding
And if the price is right, I mean the night is right, I mean the time is right
She'll do her thing, and I know the price, night, and time is right
So dimelo mami, don't play no games
Dale mama, talk to me straight
Please, please no chase
Now this isn't the debate, and I ain't gonna chase ya
Mami you're the internet, and I'm looking for a download
And if you don't know, now you know
Yeah, I make them come and go
I make the girls go!
I make the girls go!
I make the girls go!
I make them come, make them come
Make them go-o-o
I make them come, make them come
I make the girls go!I make them come, make them come
Make them go-o-o
I make them come, make them come
I make the girls go!Now you heard about me, and I ain't gotta say much
I ain't talking about cars, it's automatic I'll pop your clutch
You gon' do things baby, you never done before
And you will say things babe, you never said before
You will think us baby, you never thought you did
This is eyes wide shut, turn those cans, so baby don't blame
Mami you're the internet, and I'm looking for a download
And if you don't know, now you know
Yeah, I make them come and goI make the girls go!
I make the girls go!
I make the girls go!
Su tia ta buena, su madre ta buena
Toda tan buena (I make the girls go!)
I make them come, make them come
Make them go-o-o
I make them come, make them comeI make the girls go!
I make them come, make them come
Make them go-o-o
I make them come, make them comeI make the girls go!
That's right, that's right, that's right, that's right

Say with me now...
Lalalalalalalalalalala...
I make the girls go!
I make them come, make them come
Make them go-o-o
I make them come, make them come
I make the girls go!
I make them come, make them come
Make them go-o-o
I make them come, make them come
I make the girls go!
