We Came To Smash (feat. Dev)

Martin Solveig

You clap your hands, you're turning heads
You're jumping ship, jumping on my bed
You snuck into my room
danced away the way the night
I turned off my light, I turned off my light.
So watch me baby follow my lead
They can't stop us now, take what you need
you came to smash it all
what we got to lose
in the black tuxedo and shining shoes.we came to smash smash

It's not too late, I swear it's not
It's time to sleep the sky is polka dot
Back up your car in the parking lot
Let's take a ride to my vacation spot
The streets are full, f it we'll walk
Call my phone if you wanna talk
They got no bars it's dark in here
I only shine so I can disappear.
