Helium (feat. Jareth)

Chris Lake

He filled me up to the dark
He filled me with your love
It feels so good, it feels so good
Like I'm never coming down.
And ever since that day
Crown beneath the fades away
The fades away, the fades away.And watch me go
Watch me go!
Float away
Like helium your love
Feel me up!
Like helium, like helium your love.
Up and I'm exposed
I never felt this close,
To atmosphere, the atmosphere
Has really got me.
And ever since that day
The crown beneath the fades away
The fades away, the fades away.And watch me go
Watch me go!
Float away
Like helium, like helium your loveThings are said, always seems to come into play
But ever since that much in that day
The ground beneath the fades away, away away away
And watch me go
Watch me go!
Float away
Like helium, like helium your love
Feel me up!And watch me go
Watch me go!
Float away
Like helium, like helium your love
