Legends Never Die (feat. Katy Perry)

Ferras

Rev-up, leave 'em all in the dust
Got a Cadillac six pack vision of us
Tonight we ride high into the desert sky
Hands up, feel the heat in the air
Legends never die, they play truth or dare
Tonight we stop TIME, let go of the wheel
And drive! How does it feels to fly?!We are the STARS that shine
We don't even have to try,
We could go down in flames
But we'll melt down the world away
All I know is you're my rock & roll
And wherever we go, we are heroes, heroes
They don't make 'em like you & I,
Legends never die!
Undressed in a beautiful mess,
but I got your gold heart right here on my chest!
They say we're CRAZY, so baby let's go INSANE
It's anarchy when we're together,
I know we will live forever
Maybe one day, we'll make History!
How does it feels to be free?!We are the STARS that shine
We don't even have to try,
We could go down in flames
But we'll melt down the world away
All I know is you're my rock & roll
And wherever we go, we are heroes, heroes
They don't make 'em like you & I,
Legends never die! Die die
Legends never die! Die die
Legends never burn out, just to fade away
We keep the clock turning like a figure Eight!
Tonight we stop time, let go of the wheel
And drive!We are the STARS that shine
We don't even have to try,
We could go down in flames
But we'll melt down the world away
All I know is you're my rock & roll
And wherever we go, we are heroes, heroes (heroes)
They don't make 'em like you & I,
Legends never die! Die dieLegends never die! Die die
Legends never die! Die die
(All I know is you're my rock and roll,

And wherever we go, we are heroes, heroes)
Legends never die! Die die
(They don't make 'em like you & I)
Legends never die! Die die
Legends never die! Die die
