I Believe In You

Toy-Box

Shout it out
Truth or dare
Show that you're hurting
You know that I careTake a chance
Let it go
Pretend that you're dreaming
Just go with the flowNow that I found love
Feels like a dream come true
Give me a sign girl
Waiting around just for you
Cause I'll be here for you
I believe in you
And all the things you are
I believe in you
For now and forever
And now and forever more (Hey, ho, hey)Close your eyes
Make a wish
I'm sending a thought
I have sealed with a kissFly away
Make amends
You know I'll be waiting
If you need a friendNow that I found love
Feels like a dream come true (Haha)
Give me a sign girl
Waiting around just for you
Cause I'll be here for you
I believe in you
And all the things you are
I believe in you
For now and forever
And now and forever moreI believe in you
And all the things you are
I believe in you
For now and forever
And now and forever moreI believe in you
And all the things you are
I believe in you
For now and forever
And now and forever more
