Just for a Moment (feat. Iselin)

Gryffin

I'll tell you something you need to know
Nothing I can say from the phone
I'll tell you something, we have to see 'cause
You're the one that I miss the mostI've heard that you're happy
And maybe it's selfish of me
To want you back this time
I know we decided if we both were free
But it kills me now
We said our last goodbye
Won't you stay the night?
Even just for a moment
Perfect night, pretend we're fine
Even just for a moment
Nowhere over, we're still not over
Pull me closer, I need closure
This is our last goodbye
Stay the night, even just for a moment
Even just for a momentWhen you're not hurting
It's hurting me (hurting me)
I'm blinded by the past
I'm lost at sea (mm)
I've heard that you're happy
And maybe it's selfish of me
To want you back this time
I know we decided if we both were free
But it kills me nowWe said our last goodbye
Won't you stay the night?
Even just for a moment
Perfect night, pretend we're fine
Even just for a moment
Nowhere over, we're still not over
Pull me closer, I need closure
This is our last goodbye
Stay the night, even just for a moment
Even just for a moment
Even just for a momentWe said our last goodbye
Won't you stay the night
Even just for a moment?
Perfect night, pretend we're fine
Even just for a moment
Nowhere over, we're still not over
Pull me closer, I need closure

This is our last goodbye
Stay the night, even just for a moment
Even just for a moment
Won't you stay the night
Even just for a moment?
Even just for a momentWe said our last goodbye
Won't you stay the night
Even just for a moment?
Perfect night, pretend we're fine
Even just for a moment
