Silent Skies (Xan Griffin Remix) [feat. Karra]

Seven Lions

Oh you're stars away from yesterday
Like a tidal wave
It'll break the pain
So let go, let goUnder silent skies I hear the echo of your
heart again
Every tear you cry just drips away
Won't you lift up the lights
Come back to life
You never thought you'd see the end
So lift up the lights won't you hold me tonight again
Under silent sikes
Silent sikes
Silent skies
Under silent skies I hear the echo of your
heart again
Every tear you cry just drips away
Won't you lift up the lights
Come back to life
You never thought you'd see the end
So lift up the lights won't you hold me tonight again
Under silent sikesUnder silent skies
Silent skies
Silent skies
