

# Sugar for the Pill

## Slowdive

There's a buzzard of gulls  
They're drumming in the wind  
Only lovers alive  
Running in the dark And I rolled away  
Said we never wanted much  
Just a rollercoast'  
Our love has never known the way  
Sugar for the pill  
You know it's just the way things are  
Cannot buy the sun  
This jealousy will break the whole  
Cut across the sky  
And move a little closer now  
Lying in a bed of greed  
You know I had the strangest dream And I rolled away  
Said we never wanted much  
Just a rollercoast'  
Our love has never known the way  
Sugar for the pill  
You know it's just the way things are  
Cannot buy the sun  
This jealousy will break the whole  
And I rolled away  
Said we never wanted much  
Just a rollercoast'  
Our love has never known the way  
Sugar for the pill  
You know it's just the way things are  
Cannot buy the sun  
This jealousy will break the whole
