

# Broken Hearts

Chevel Shepherd

[Verse 1]

Stained glass found the steeple  
Found a record, found a needle  
And in a crowd of people, I found you  
I learned from my rehearsals  
[?] don't fit into circles  
I never could make purple without blue[Chorus]  
Maybe we were born with broken hearts  
Only half of who we are  
Two jagged pieces looking for their counterparts  
Maybe we were born with broken hearts

[Verse 2]

I never knew it really mattered  
How heaven needed ever after  
There was still a missing chapter from the book  
I thought love was just for letters  
Tattered fragments of forever  
Til the puzzle came together with love[Chorus]  
Maybe we were born with broken hearts  
Only half of who we are  
Two jagged pieces looking for their counterparts  
Maybe we were born with broken hearts[Bridge]  
The edges just the wood (Just like wood)  
Now all the [?] made perfect sense  
And no one will ever know  
[?] and what begins

[Chorus]

Maybe we were born with broken hearts  
Only half of who we are  
Two jagged pieces looking for that counterpart  
Maybe we were born with broken hearts  
Maybe we were born with broken hearts  
Maybe we were born with broken hearts
