Straight No Chaser

Mr Hudson

Straight no chaser
We don't waste our time on fakeness
One glass, one shot is all it takes us
Better this than fade away, fade awaySo our story goes this empty city
Crowded skies are clearing but I'm lonesome, lonesome
No, bring on the night, there's work a plenty
Fluorescent lamps are passing in slow motionOnly I will wander, only I can leave
Straight no chaser
We don't waste our time on fakeness
One glass, one shot is all it takes us
Better this than fade away, oh, fade awaySo we set the scene, a sea of faces
Laser eyes are watching as we close in, close in
Don't play innocent, I know your thinking
You're chasing conversation out of focusOnly I will wander, only I can leaveStraight no chaser
We don't waste our time on fakeness, no
One glass, one shot is all it takes us
Better this than fade away, oh, fade away
Straight no chaser
We don't waste our time on fakeness
One glass, one shot is all it takes us
Better this than fade away, fade away
Fade away, fade away
